

bitekiosk

The world's first **hospitality driven** in-store digital guest experience that leverages **Facial Recognition** technology.

A truly intelligent kiosk

Increase Labor Efficiency & Lower Costs

With rising labor costs and high turnover, kiosk ordering provides a familiar ordering experience to guests while **decreasing labor costs and guest wait times**. No training required - Bite is ready to serve on day one.

Drive Average Check

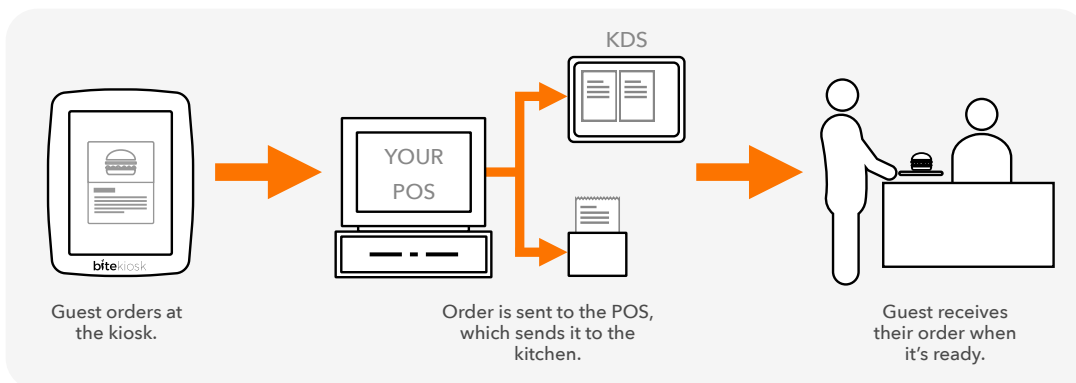

Self-service lets you maximize order accuracy and throughput - especially during peak times. Bite's intelligent recommendation algorithms will **increase your check averages by 16% or more**.

Create Brand Loyalty

Using our facial recognition (opt-in, of course) and algorithms, we tailor recommendations to each guest, leading to **increased frequency and improved brand sentiment**. And your marketing team will love to finally know who is ordering what.

Integrated to your tech stack

Integrated Solution
